October 15, 2009

Dear Resident/Downtown Merchant,

The Village of Long Grove wishes to update you on the 2009 Street Program project that will be taking place shortly in your area. The limits and extent of the work is proposed on the following roadway:

Robert Parker Coffin Road – Robert Parker Coffin Bridge to IL 83

Work will consist of removal and replacement of the existing hot-mix asphalt surface course, shoulder removal and replacement, partial bituminous driveway removal and replacement, miscellaneous pavement patching, landscape restoration, pavement striping and sign installation.

The Contractor is scheduled to begin the Robert Parker Coffin Roadway work on Monday, October 19, 2009. The work on Robert Parker Coffin Road is anticipated to last for approximately two to three weeks (note this schedule is weather permitting).

Due to the construction vehicles and nature of the work, traffic in these areas will be affected. Please note that single lane access will remain open at all times. Be aware that the roadway will have a rough grooved surface once milling is completed and/or travel may be rough or bumpy over patch areas prior to final surface course being placed. Traveling the roadways listed above should take care when traveling over the uneven pavement and be aware of their surroundings when traveling through the construction zones. All are encouraged to consider alternative routes and/or allow for extra travel time while the construction activities above are underway.

Should you have any questions, concerns or inquiring further information regarding the paving contractor, please contact the Village of Long Grove at the office (847) 634-9440.

Thank you for your cooperation and patience in this matter.

Sincerely,
The Village of Long Grove
